**SERVICE HISTORY**

This Bessecarr E442 is in beautiful condition inside and out, and has clearly been loved throughout its life by previous owners. This particular vehicle boasts a super low mileage and cambelt done in last year in 2020. This 2 berth configuration is fantastic for all due to its long single beds that can also be turned into a huge double bed. This motorhome is also desirable due to it being under the 3500kg (3.5 ton) weight bracket, meaning that anyone with a standard driving license can drive it without any extra tests. There is a massive amount of storage space both in overhead lockers, and also clever storage under the seats and in cupboards. This particular model comes with the 3 way fridge, cooker, heating and hot water, full size fresh and waster water tanks and much much more. All of our motorhomes come with a fresh 12 month MOT, full service, and a habitation check as standard.
